

can't tell exactly what the income from the place was, but it's all wrote down, each place. If you would have mentioned it to me I could have brought it along just as I showed it to Mr. Stoner.

Q What are the different sources of income?

A Well from the rents that I get, and the wheat and corn that was sold off the places, and there there's some little Potomac Edison stock.

Q How much is that? A. Around \$400.

Q You mean \$400 of income or \$400 of stock? A. \$400 income.

(Mr. Shuff: About \$135 each three months.)

A Yes, comes four times a year, doesn't it?

Q Yes, \$540.

Q You don't get any income from the Frederick County Bank?

A Not a cent. Haven't got any income from the Frederick County Bank since it's been closed; not a cent.

(Mr. Shuff: No assessment on it.)

Q That represented an investment of about \$50,000 of Mr. Renn's money. That was 1230 shares.

Q Are there any other sources of income?

A That's all. You see till I pay the taxes -- the taxes are quite a good bit, \$600 or \$700 -- my city taxes and water rents and my living and my insurances -- I have \$100 to pay this coming week for insurances on two of the places, and fertilizers and all the little repairs, but down at the places we haven't got the income to do it.

Q How many farms are there, Mrs. Renn, from which you get income?

A You see the place at New Market, since the first year Mr. Renn has been gone, I haven't got anything but \$3.00. This year I might get \$10 or \$15. I don't know whether I am going to get that, because the man on the place, was out there, didn't put the corn out, didn't tend it. He did husk some of mine out and he went and used that. Now he has promised to husk out what he took of mine and put it back. Mr. Troxell was down the other day. Mr. Troxell said he told him he was coming back and husk my share and put it in the corn house, and that was four barrels of good corn and seven barrels of nubbins, but I don't know whether he will or not.

Q Then you have two other farms?
